7. **Presentations:** The President presented to Stephanie West from the Nursery at Caboolture Hospital with an Ipad engraved from CRCC which has Wifi capabilities and camera for sending to parents photos of their children and the staff will use this to contact parents and giving the Caboolture Hospital quarterly statistics. We thank Rosina and Claire for the suggestion and obtaining the donation. The President then presented a cheque to the family of Kiara Graham their four year old who requires a new wheelchair to attend school. This was brought to our attention from Cathy who saw an article in the Caboolture News.

8. **Minutes of previous meeting:** Confirmation and matters arising from the previous minutes 7th October 2015

Matters arising from previous minutes: Clarification of comments, The Secretary Jan Badham read out these previous minutes. "Claire passionately raised the subject of giving away money to anybody and suggested preference goes to organisations over personal individual and perhaps we should be more selective on our donations. The President allowed the members at the meeting to speak at length and freely amongst the group in regards to the matter. Amongst various comments and points raised Cathy has always generously donated to individuals and organisations freely. Claire pointed out that this matter should be addressed and tighter control be imposed. Cathy assured Claire that the vote is always put to the members and the members have the final say. Devin rounded the conversation and said that we will further discuss the matter at the next meeting." The Secretary read out the above and the President asked Claire to respond and just responded with the same sentiments and that she felt the Club would run out of funds and Cathy only person who brings up who we should donate to and felt members should contribute.

The President then went onto the next Agenda item but before he did he read a statement that he had put on Facebook.

"For the benefit of all the new members here my name is Devin Pearce my position as the President, this position is my second term of office. During the past two years a member I have seen the Club grow from strength to strength I have seen the passion, I have seen the dedication and commitment by members that go beyond comprehension of members putting in countless hours and inconvenience and create personal financial burdens all to follow our dream to make this a great club for you and I who are here tonight. And so to, during this period of time I have also witnessed sarcasm, domination,

negativity, hurtful comments and bullying both in written text and verbally. As I understand I cannot be responsible for all communication between members, however I can take responsibility for having a meeting where one member upsets another member and the Chairman does not interact, I have to ask myself? Would I want my daughter at this type of meeting. Definitely not. Would I want for any other persons under the age of 18 to be at a meeting such as the one we had last month or a young person serve on the Committee and deal with the verbal and text communications thus far, definitely not. And so to the feelings I have had, have been emphasised by the comments I received from members, Committee members, Life members and foundation members that I should improve my skills and not tolerate, call to order meeting and run better meetings.

All this I've taken on board and so too I am working on the way meetings are conducted, in the future if any member feel strongly on a subject or the way we have always done it? To the best of my ability I will call to order, ask the person to move a motion, obtain a seconder, open the meeting for discussion and cast a vote to the members to oppose the status quo. I've also taken upon myself to attend a "how to run a better meeting" put on by the Moreton Regional Council along with our Secretary Jan, and I've currently studying quite a bit of literature on how to conduct a meeting, as we progress I feel that I will become more skilled in performing the office of Chairman. To improve the meetings and give the members better information source I feel that an update of the Constitution can easily be done by adapting the one provided free from the Office of Fair Trading, called "the Model Rules" which is an updated version of a constitution and how the club should be run as set out by the Office of Fair Trading. Currently we are implementing the Risk Management document to ensure that we have policies and procedures so that the Club and the Members are not at risk. Thirdly if we are to move this club forward and involve young people then we should seriously consider implementing policies and procedures in regards to the Committee getting blue cards "regardless of whether we have to or not" and having documents, policies and procedures in place to ensure that the Club is not at risk by implementing these procedures accordingly. Unfortunately, none of these issues have been addressed in the previous years and I feel that now is the time, we have an excellent Committee and a strong membership base and a combined desire to move forward, as a team.

9. **New Business:** Membership - Robert Dalton moved that the Club increase it's fees seconded Naosha Chalvatzis. A vote was conducted by show of Voting cards, Motion carried. Moved that the Membership fees be \$30 per year. Kevin Lewis, seconded John Hogg, Motion carried. Moved that the Members pay \$40 for their shirt. Ross Carstairs, seconded Naosha Chalvatzis. Motion carried Risk Management, Revising Constitution, Robert's Rules and Parliamentary procedures, these were discussed and the Revising Constitution, will be looked at when the new one is presented. Members under 18 years. Moved that the Club prefers that we accept over 18 years of age as a Member. John Hogg, seconded Tim Howe. Motion carried

The President spoke of having this at Toy World at Morayfield and the members purchase a toy for \$10 that represents their car and take the toys up to Caboolture Hospital for the children there. Moved that we use Club Money for the toys for the Caboolture Hospital to the value of \$350. John Hogg seconded Jan Badham. Motion carried.

Cyril's joke of the month

An old country farmer goes to town to see a movie, but there is immediately a problem when he is not allowed in with his pet cock, Chuck (rooster). So the farmer goes around the corner and stuffs Chuck down his overalls, buys his ticket, and then settles-down in the cinema next to two old widows named Mildred and Marge.

The movie commences and of course Chuck starts to squirm, so the old farmer unbuttons his fly so that Chuck can stick his head out and they can watch the movie together.

"Marge", whispers Mildred. "I think the guy next to me is a pervert. He undid his pants and he has his thing hanging-out."

"Well, don't worry about it, Mildred", says Marge. "At our age we've seen 'em all."

"I thought so, too", says Mildred. "But this one is eat'n my popcorn!"

In 1986, Peter Davies was on holiday in Kenya after graduating from Louisiana State University. On a hike through the bush, he came across a young bull elephant standing with one leg raised in the air. The elephant seemed distressed, so Peter approached it very carefully. He got down on one knee, inspected the elephants foot, and found a large piece of wood deeply embedded in it. As carefully and as gently as he could, Peter worked the wood out with his knife, after which the elephant gingerly put down its foot.

The elephant turned to face the man and with a rather curious look on its face, stared at him for several tense moments. Peter stood frozen, thinking of nothing else but being trampled. Eventually the elephant trumpeted loudly, turned and walked away. Peter never forgot that elephant or the events of that day.

Twenty years later, Peter was walking through the Chicago Zoo with his teenaged son. As they approached the elephant enclosure, one of the creatures turned and walked over to near where Peter and his son Cameron were standing. The large bull elephant stared at Peter, lifted its front foot off the ground, then put it down. The elephant did that several times then trumpeted loudly, all the while staring at the man.

Remembering the encounter in 1986, Peter could not help wondering if this was the same elephant. They say that elephants never forget. Peter summoned-up his courage, climbed over the railing and made his way into the enclosure. He walked right up to the elephant and stared back in wonder. The elephant trumpeted again, wrapped its trunk around one of Peter legs and slammed him against the railing, killing him instantly. Probably wasn't the same bloody elephant.

This month the final locally-produced Holden Commodore - the VFII - goes on sale across Australia. Its arrival brings the curtain down on 37 years of Commodore manufacture on home soil, the Aussie icon set to be replaced by an as yet *unconfirmed imported large car wearing the Commodore badge*. As well as local manufacturing, this will bring an end to the Commodore as we know and love them best: V8s and rear-wheel drive will be consigned to the history books.

But instead of lamenting the closure of such a significant Australian automotive chapter, let's celebrate the good times of a nameplate that has become a huge part of Australian folklore, and untimely legend.

The story began in 1978 when Holden introduced the VB Commodore sedan. It would ultimately replace the larger and thirstier Holden HZ range, combining German body design - Opel's Rekord E body shell with Senator front end - with an Australian engine and mechanical components. The Commodore was a marked change of direction for Holden.

The new sedans and station wagons were shorter and narrower than the full-size family car Kingswood range, as well as more luxurious, more sophisticated and more economical. A reported \$100 million had been spent on the cars' development, and it soon paid dividends. The VB Commodore became Australia's best selling car in 1979, and scored its first of five Wheels Car of the Year awards.

You could buy your original Commodore sedan in base, SL and SL/E variants, with prices starting at \$6,513 and topping-out at \$10, 513 for the SL/E.
